PathWays PA was founded in 1978 as the Women's Association for Women's Alternatives. It served as one of Pennsylvania's first residential programs to keep low-income, vulnerable women together with their children and has grown to become one of the Greater Philadelphia Region's foremost providers of residential and community-based services for women, children and families. Each year over 6,000 women, children and families benefit from our full complement of social services; job training and employment assistance; as well as outreach and residential programs as they move along the path to self-sufficiency.
